## **ABOUT US**

Our company, which was founded in 1979 by Ismail Hakkı Çimen in Konya as Çimen Agriculture, has become a company that offers integrated solutions with the wide production capacity and high quality concept with the name of Valmen Plastik A.Ş. Valmen Plastic Inc., with a production plant of 10.000m<sup>2</sup> in Konya, provides services to its customers in agricultural irrigation systems with metal filters and plastic filters produced under the brand Valmen irrigation systems with high quality in reasonable prices.

### **Why Valmen Plastik A.Ş.**

- Valmen is one of the leading companies with high production capacity.
- Valmen has a stable financial structure and continues to invest.
- Our customer-oriented company offers products and services to many countries and regions in Turkey and abroad.
- Valmen aims to provide solutions with competent employees, high quality understanding and timely delivery.

**PLASTIC FILTERS**

#### Inputs and Outputs

We offer our customers as Victaulic and Thread Filters have 1 input and 2 outputs. 1. Exit system output 2. Exit can be used as cleaning evacuator.

#### Manometer Connections

Manometer There are two connection parts and 1/4 " thread manometers are connected to it, it is closed and can be opened by the user depending on the request. The opening can be done by medium speed drill and can be drilled easily in a healthy way.

#### Sealed Intermediate Gasket

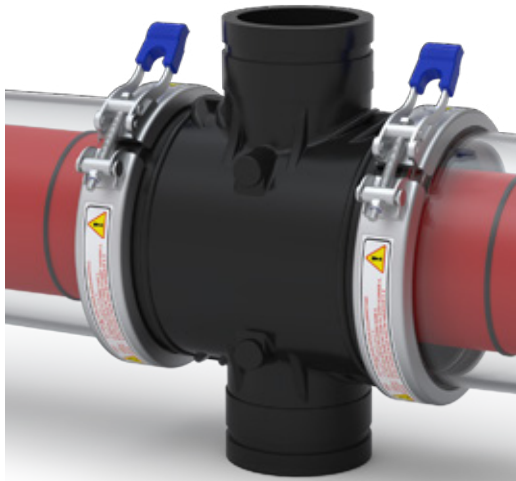

The specially designed gasket is patented. The gasket, which sits in the junctions of the three directions, does not make any leakage. Made from special rubber material. In the case of the equivalent filters, it was very uncomfortable for the users to have problems in this area. Our gasket eliminates this problem leaks and pressure losses.

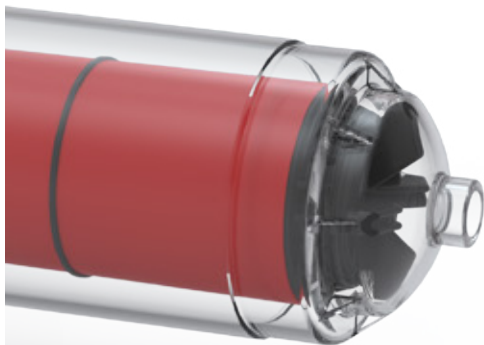

#### Evacuation and Cleaning

1/2" plug outlet part (Evacuation part is produced as closed and user opens as required) can be discharged by unscrewing the plug and attaching a threaded 1/2" outside diameter threaded tap.

#### Body and Outer Parts

The complex body and the stone Polyemid (Special Mixture engineering plastic) are produced by using raw material den and compressed with injection technology and strengthened. The high press is resistant to sunlight and external factors.

#### Chrome Connection Clamp

Made of high quality stainless chrome material (304 chrome) specially produced clamps, safety feature and easy to open and close.

#### Galvanized Connection Clamp

Specially produced clamps made of galvanized coated metal material, Safety feature and easy to open and close.

## PLASTIC FILTERS

Code	DESCRIPTION(Chrome Clamp)
VLMN0007	2" Plastic Disc Filter (NORMAL)
VLMN0008	2 1/2" Plastic Disc Filter (NORMAL)
VLMN0009	3" Plastic Disc Filter (NORMAL)
VLMN0010	2" Plastic Disc Filter (GRAND)
VLMN0011	2 1/2" Plastic Disc Filter (GRAND)
VLMN0012	3" Plastic Disc Filter (GRAND)

## DOUBLE PLASTIC FILTERS

Code	DESCRIPTION(Chrome Clamp)
VLMN0017	3" Double Plastic Disc Filter (NORMAL)
VLMN0018	4" Double Plastic Disc Filter(NORMAL)
VLMN0019	3" Double Plastic Disc Filter (GRAND)
VLMN0020	4" Double Plastic Disc Filter(GRAND)
